

## MCB422 Bonus Assignment #1

Pick any TWO of the following 3 options. Best will be graded on the basis of 8 points, second for 7. If you turn in all three, none will be graded. No late work will be accepted. Be *efficient*; I am looking for 2-4 sentence paragraphs. Good paragraphs are NOT a half page.

This is not intended as an opportunity to flatter the course or its staff. This is an opportunity for you to get more VALUE by thinking about the thinking you've been doing:

<http://www.scilearn.com/blog/teaching-metacognition-thinking-about-thinking>

Don't be a jerk: answers about how the course has "made you stupider" or "ruined your ability to think forever" will be ignored

The questions (feel free to NUMBER your responses rather than re-typing the stupid question)

- 1) How has your work in the course to date influenced your ability to reason about complex problems
- 2) What have you learned about approaching a problem in a logical, orderly fashion
- 3) How has your work improved your ability to communicate complex ideas clearly
