

**BRUCE PATTERSON**  
[biology.bruce@icloud.com](mailto:biology.bruce@icloud.com)  
(520-548-0410)

### Education

University of Ohio, Athens	B.S.	1982	Botany
University of California, S.F.	Ph.D.	1989	Biochemistry/Biophysics

### Professional Experience

7/82 - 6/89	<b>Graduate Student</b> , University of California, San Francisco
7/89 - 8/94	<b>Postdoctoral Assistant</b> , Stanford University, California
8/94 - 12/99	<b>Assistant Professor</b> , University of Arizona, Tucson, Arizona
1/00 - 7/04	<b>Assistant Research Professor</b> , University of Arizona, Tucson
8/04 - 7/05	<b>Lecturer</b> , University of Arizona, Tucson
7/05 - 5/14	<b>Director, Introductory Biology Labs</b> , University of Arizona, Tucson
6/14 - 5/15	<b>Senior Lecturer</b> , U. of AZ, Tucson
7/15 - 1/17	<b>Lecturer</b> , Princeton University
7/17-present	<b>Tutor</b> , Wyzant Tutoring

### Honors and Awards

9/82	National Science Foundation Fellowship
9/85	UCSF Chancellor's Fellowship
7/89-6/92	Damon Runyon/Walter Winchell Cancer Fund Fellow
7/92-6/95	NIH Fellow
1/95 - 12/95	Small Grants, Univ. of Arizona,
1/95 - 12/95	ACS Inst. Res. Grant, 110S,
7/95 - 12/96	Am. Heart/AZ Affiliate, AZBG-19-95,
2/96 - 01/98	March of Dimes, Basil O'Connor, 5-FY95-1124,
8/96 - 07/00	NIH, R01 GM55977
8/1/01-8/31/02	University of Arizona New Learning Environment grant

## Courses Taught

### University of Arizona 1995-2015

MCB396B Lab Preceptor training

MCB492 Independent Undergraduate Research

MCB497A Undergraduate Lab Instructor preparation

MCB184 The Secrets of Life (introductory biology; 150-200 students, taught 4 times)

MCB181L, ECOL182L Introductory Biology Labs (Director, lab design, manual author, hiring, instructor preparation; directed 181L 10 years; 182L 5 years)

MCB184, Introductory Biology (combined lab + lecture; 100% responsibility)

MCB325, Genetics (20 students; taught 1 time)

MCB545, Genetics (Graduate) (15-35 students, 3 times @ 33% responsibility, coordinated 1 time)

MCB422, Problem Solving with Genetic Tools (10-20 students, ~10 times @ 100%)

MCB411, Molecular Biology (100-150 students ~7 times @ 50 or 100%)

ECOL320, Genetics (2 times @33%)

I have also participated briefly in MCB410 (Cell Biology) and taught a summer course in Genetics for High School Biology Teachers.

### Princeton University 2015-2016

MOL350, Core Lab (upper division 'authentic' research experience) 2 semesters

MOL214 Introductory Biology (responsible for precepts; teach 6 of the weekly 1-hour sections)

## Courses Created

### University of Arizona 1995-2015

**MCB184**, The Secrets of Life: Combined lab/lecture introductory biology course

**MCB181L** and **ECOL182L**: the two Introductory Biology lab semesters; extensively modified

**MCB325**: Small upper division general genetics course with emphasis on problem-based learning

**MCB422**, Problem Solving with Genetic Tools: Computer-simulated laboratory. Solving problems via genetic experiments in phage, yeast, and Mendelian genetic systems. Individual and team projects require deduction and discovery of genotype, pathway, and genetic phenomena through crosses and phenotypic observation (also offered at University of Georgia by an ex-student)

### Princeton University 2015-2016

**MOL350**, Core Lab: Completely re-designed content, assignments, rubrics (2 times)

**MOL214** Introductory Biology: Creating all precept materials used this semester

## Software and Websites

**Simulations** and **explorations** can be viewed and tested from <https://thinkbio.guru>; I programmed all software and most database interaction features. I'm currently converting several exercises to iPad-compatible format.

**MCB422** (Problem solving with genetic tools) <http://blc.arizona.edu/courses/mcb422/>

**MCB184** (Combined lab/lecture Introductory Biology) <http://blc.arizona.edu/courses/mcb184/>

**MCB181L** (Introductory Biology Lab) <http://blc.arizona.edu/courses/181Lab/>

**TeachBio**, a blog on teaching Introductory Biology <https://www.thinkbio.guru/tBioWordPress/>

**Secrets of Life**, an interactive online biology textbook I am writing

(historical) Website “**Mucking about with mutants of the myosin motor**,” a web site describing the ongoing research of the laboratory in a format designed to be accessible to the general public. Currently at <http://research.biology.arizona.edu/myosin>
